

Pandas Data Wrangling Overview

Akitaka Matsuo
Essex IADS

Lectures: Week 03

- We learn pandas package in Python
- There are two main subjects to learn
 1. Pandas data input and output (Lecture 02)
 2. Pandas data manipulation
 - We will start with Series
 - Then DataFrames
 - Creation/indexing
 - Select rows and columns
 - Merging DataFrames
 - Get descriptive statistics
 - Pivoting (“Long” to/from “Wide”)
